

# Model #: PV1250FC

## PowerVerter® Plus 1250W Industrial-Strength Inverter with 2 Outlets

## **Highlights**

- 12V DC input; 120V AC output; 2 outlet
- 1250 watts continuous output
- Peak surge output: OverPower (up to 1 hour) 1875 watts, Double-Boost (up to 10 seconds) 2500 watts
- High efficiency power conversion
- Automatic overload protection

### **Description**

Utilize you vehicle's battery to efficiently power work site power tools, pumps, as well as your laptop computer. Continuously supplies 1250 watts of 120VAC power to (2) AC outlets from any 12VDC battery source. Frequency control locks AC output at 60Hz for operating stability of motor loads and other inductive loads with high current startup requirements.

#### Applications

• Ideal for power tools, pumps, fans, desktop computer systems, laptops, portable electronics, battery chargers for cell phones and games, full size TV/DVD & stereo systems, camcorders, lighting and other AC applications under 1250 watts continuous/2500 watts peak.

Package Includes

- PV1250FC inverter
- Instruction manual

#### **Features**

- Allows users to run large, motorized AC appliances from any 12V battery or automotive DC system
- Converts 12V DC battery power to 120V AC power
- 1,250 watts continuous output power
- Peak output power: OverPower (up to 1 hour) 1875 watts, Double-Boost (up to 10 seconds) 2500 watts
- 2 outlets; DC input terminals for 12V battery connection
- Frequency control for operating stability
- High-efficiency operation conserves batteries to prolong run time
- Diagnostic LEDs indicate load level (high, medium, and low) and battery charge (high, medium, and low)
- DC fusing protects inverter against overload
- RJ45 port allows connection of APS/PowerVerter Remote Switch (APSRM4)
- Automatic overload shutdown
- Ignition interlock jack

## Specifications

OUTPUT			
Frequency compatibility	60 Hz		
Output watts	1250		
Continuous output capacity (watts)	1250		
Peak output capacity (watts)	2500		
Output nominal voltage	120V		
Output voltage regulation	Maintains PWM sine wave output voltage of 120 V AC (+/-5%)		
Output frequency regulation	60 Hz (+/- 0.3 Hz)		
Overload protection	Circuit breaker		
Outlet quantity / type	2 AC outlets		
INPUT			
Recommended Electrical Service	Requires 12V DC input source capable of delivering 127A for the required duration (when used at full capacity). For automotive applications, professional hardwire installation with 200A battery system fusing is recommended.		
Maximum input amps / watts	Full continuous load - 127A at 12V DC, No load - 2.2A at 12V DC		
Input connection type	Set of 2 DC input terminals		
Input cord length details	User supplies cabling. 4 gauge or larger recommended.		
Voltage compatibility (VDC)	12		
BATTERY			
DC system voltage (VDC)	12		
LEDS ALARMS & SWIT	CHES		
Switches	3 position on/off/remote switch enables simple on/off power control plus "remote" setting that enables distant on/off control of the inverter system when used in conjunction with optional APRM4 remote		
Front panel LEDs	Set of 6 LEDs offer continuous status information on load percentage (6 levels reported) and battery charge level (7 levels reported). See manual for sequences.		
PHYSICAL			
Shipping weight (Ibs)	24.8		
Shipping weight (kg)	11.2		
Cooling method	Fan		
Unit Dimensions (HWD/in)	7 x 8.75 x 9		
Unit Dimensions (HWD/cm)	17.78 x 22.23 x 22.86		

12.5 x 11 x 10.75			
31.75 x 27.94 x 27.31			
23.2			
10.5			
Polycarbonate			
Heavy-duty			
Mounting slots enable permanent placement of inverter on any horizontal surface (see manual for additional mounting information)			
0-95% non-condensing			
SPECIAL FEATURES			
Black color			
Yes			
WARRANTY			
1-year limited warranty
